**Bonaire, Caribbean Netherlands**

Bonaire is without a doubt a "diver's paradise." Its license plates even state the same. But there is much more to this small Dutch country of 17,500 residents. "Bon Bini," as you will hear the friendly locals say, means "welcome to the island of Bonaire." Bonaire is located off the coast of Venezuela and has for years been known as a world-class diving and snorkeling destination. Diving and snorkeling are still the predominant activities, but today there is also a variety of other activities to enjoy such as kayaking, bird watching, and other eco-tours. Because of the hot and arid weather, Bonaire has been a major producer of sea salt. Do not miss the "white mountains" waiting to be shipped out and the salt flats where the salt is evaporated from the Caribbean Sea, which also happens to be home to another icon of Bonaire-the pink flamingo. Explore the Dutch architecture of the capital Kralendijk, enjoy the pristine coral reefs, or tour the scenic countryside. Whatever you decide to do in Bonaire, you are sure to have a fantastic time.
