Charlottetown, Prince Edward Island, Canada

While Prince Edward Island is Canada's smallest province in terms of area and population, it more than makes up for this with the friendliness of its people, its natural beauty, and for being known as the birthplace of Canada.

The island's landscape is dramatic and features rolling hills, pristine forests, reddish-white sand beaches, ocean coves and the famous red soil. The capital of Charlottetown offers a small town feel and a relaxed atmosphere with a cosmopolitan flair. The town has evolved into a dynamic city without sacrificing its historic charm. One certainly cannot think about Prince Edward without mentioning the author Lucy Maud Montgomery who once lived on PEI and drew inspiration from the land during the late Victorian Era for the setting of her classic novel "Anne of Green Gables." PEI also has another claim to fame with the Confederation Bridge built in 1997. The world's longest bridge over ice-covered waters provides a connection from PEI to the mainland Canada.
