

## Ports & Excursions

### Hobart (Tasmania), Australia

Tasmania's capital has much in common with Sydney. Founded but a few years later, Hobart also owes its origins to the establishment of a penal colony - and its natural setting is just as impressive. Seen from its fine deep-water harbor, Hobart spills over the lower reaches of the Derwent Valley as Mt. Wellington towers in the background. Much of the city's heritage is centered on the historic waterfront. North of the city stretches the vast parkland of the Queen's Domain. Many of Tasmania's other attractions are within easy reach of Hobart.

With more than 90 National Trust buildings, Hobart, founded in 1804, combines colonial character with a sophisticated metropolitan lifestyle.
